

Activity Module

This wall-mounted game helps maintain eye-hand coordination in a playful manner! This Activity Module is a simple but effective and entertaining addition to any space, whether for guided or independent play. This simple game help stimulate the elderly to train their reflexes and get in a bit of easy exercise.

The Activity Module gives the player 15 seconds to press the buttons when they light up, one at a time. After the 15 seconds are over, the scoreboard shows the final score. Fun for breaking personal records, or keeping score of their condition!
